

Issued January 26, 1937.

UNITED STATES DEPARTMENT OF AGRICULTURE  
AGRICULTURAL ADJUSTMENT ADMINISTRATION  
NORTH CENTRAL DIVISION  
Washington, D. C.

Re: Adjusted County Rates

Under the provisions of Section 6, Part II of North Central Region Bulletin No. 1, Revised, as amended, the rates of payment specified in Sections 2, 3, and 4, Part II of such bulletin are based upon an estimate of available funds and an estimate of approximately 80 percent participation by farmers in the 1936 Agricultural Conservation Program in the North Central Region. It is further provided that if participation in the North Central Region is less than 80 percent, the rates of payment may be increased or decreased pro rata, provided that in no event will such rates be increased or decreased by more than 10 percent.

Under date of January 6, 1937, the Secretary of Agriculture, under authority vested in him under Section 8 of the Soil Conservation and Domestic Allotment Act, as amended, ordered that

"(1) When the amount of the estimated administrative expenses incurred or to be incurred by the County Agricultural Association for any county in carrying out in such county the 1936 Agricultural Conservation Program has been determined for such county, and the amount of such administrative expenses to be deducted pro rata from payments to members of such association has been determined, and the estimated total payments, prior to deduction of said administrative expenses, have also been determined, there shall be made with respect to each Application for Payment, Form NCR-12, Form NCR-15, or Form NCR-17, duly executed in accordance with the applicable rules and instructions:

"(a) To each person entitled thereto who has not previously received an initial payment pursuant to said order of the Secretary of Agriculture dated October 7, 1936, as amended, one full and final payment equal to 107 percent of the soil-conserving payment and the payments with respect to sugar beets, flax, and rice, and 100 percent of the soil-building payment computed in accordance with the rates, and subject to the conditions, in effect under said program as of the date hereof less the amount of the administrative expenses applicable to such payment; and

"(b) To each person who has received an initial payment pursuant to said order of the Secretary of Agriculture dated October 7, 1936, as amended, an additional and final payment which, with such initial

payment, will be equal to 107 percent of the soil-conserving payment and the payments with respect to sugar beets, flax, and rice, and 100 percent of the soil-building payment computed in accordance with the rates, and subject to the conditions, in effect under said program as of the date hereof less the amount of such administrative expenses applicable to the sum of such initial payment and such additional and final payment."

For convenience in determining payments to producers in accordance with the aforesaid order of the Secretary, dated January 6, 1937, the county rates contained in NCR-B-3 have been adjusted as follows:

OHIO

| County     | Rate of<br>payment<br>per acre | County    | Rate of<br>payment<br>per acre |
|------------|--------------------------------|-----------|--------------------------------|
| Allen      | \$14.34                        | Lake      | \$12.63                        |
| Defiance   | 14.02                          | Mahoning  | 13.48                          |
| Fulton     | 15.41                          | Medina    | 13.48                          |
| Hancock    | 14.98                          | Portage   | 13.27                          |
| Henry      | 15.41                          | Stark     | 14.02                          |
| Lucas      | 15.84                          | Summit    | 13.59                          |
| Paulding   | 12.95                          | Trumbull  | 12.95                          |
| Putnam     | 15.19                          | Wayne     | 15.19                          |
| Van Wert   | 14.12                          |           |                                |
| Williams   | 15.41                          | Auglaize  | 14.34                          |

For individual farms in the foregoing counties, the rate of payment for each acre of the general soil-depleting base which in 1936 is diverted to the production of any soil-conserving crop shall be the rate determined by multiplying the county average rate for the county in which the farm is located by the productivity index established for such farm in accordance with the provisions of NCR-8, Revised, and then dividing the result by 100.

*H. O. Fraser*

Acting Director,  
North Central Division.
